I am a dedication professional with an extreme work ethic. I have been in law enforcement for the last ten and a half years. I have conducted intense investigations that require the ability to work within a team to accomplish a common goal. My analytical problem solving skills and communication abilities that I have developed and honed in law enforcement will directly transition to my aspiring goal of becoming a web developer. I am the type of individual that never settles and believes that there is always something new to be learned. I have been able to complete a Full-Stack Web Development Bootcamp through Vanderbilt University that requires approximately 30-35 hours of dedication per week, while working on average 40-45 hours a week (and some weeks many more), as well as being the best father to my daughter that I can be. I currently have a grade point average in the high 97th percentile. I am extremely dedicated to being the best web development professional as possible and I will continue to strive for this goal every single day. Thank you so much for your consideration and please feel free to contact me at any time.

Professional Experience

July 2012 - Present

Detective Metropolitan Nashville Police Department

Patrol Officer, Flex Unit Officer, Precinct Investigations Detective (Investigating crimes ranging from simple property up to and including homicide), Gang Unit Detective (focusing on Gang Intelligence and Enforcement), Crime Gun Unit Detective, TITANS Unit Detective, and NIBIN Detective (Focused on investigating large scale shooting networks). I have also conducted large scale narcotics investigations, up to and including Title III wire tap investigations. I was also among the first 5-6 detectives instructed on Social Network Analysis, which is the evaluation of personal connections and the importance of certain individuals within the network. I was also a founding member of the Crime Gun Unit, which utilizes NIBIN (National Integrated Ballistics Information Network) in order to identify large scale shooting networks. I have been conducting Instruction on both Social Network Analysis as well as NIBIN since 2019.

January 2020 - Present

Co-Owner S.T.T.A.G. (Security Tactics Training Advisory Group)

Training and Advisory Consultations for both law enforcement and private sector entities on NIBIN, Social Network Analysis, Site Security, Active Shooter Training (focusing on education personel in regards to what to do in an active shooter situation and basic trauma care), Self-Preparedness, and firearms instruction.

Education
